Study all directory advertising invoices carefully

Business and Classified Directory publishers under various names have flooded our mails for several years with solicitations resembling City Directory invoices. Most such solicitations state that they are not invoices, but nevertheless business people frequently overlook this and process them for payment.

What seems like an invoice may really be a carefully worded proposal for service—of an indefinite nature—and questionable value—to be rendered in the future, *if you pay in advance*. If in doubt, check with your local Better Business Bureau, or your established City Directory publisher.

Before you invest, investigate!

The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the Directory.

INTRODUCTION
AND
GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,400 city and suburban Directories, present to subscribers and the general public, this, the latest edition of the Council Bluffs City Directory including Lake Manawa.

Confidence in the growth of Council Bluff's industry, population and wealth and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Council Bluffs to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Council Bluffs Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings-a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In busy and diversified communities like Council Bluffs and Lake Manawa, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation and address of each adult resident of Council Bluffs including Lake Manawa, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, INCLUDING LAKE MANAWA, on green paper, is the third major department. In this section, the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers, new householder symbols and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY INCLUDING LAKE MANAWA is the fourth major department, printed on blue paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. The publishers have placed copies of this

issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Council Bluffs.

The Council Bluffs Directory Library

Through the courtesy of the publishers of the Council Bluffs City Directory, a Directory Library is maintained at the Council Bluffs Free Public Library, for free reference by the general public. This is one of many Directory Libraries installed in cities and towns throughout the United States and Canada through the courtesy of your publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HISTORY OF COUNCIL BLUFFS

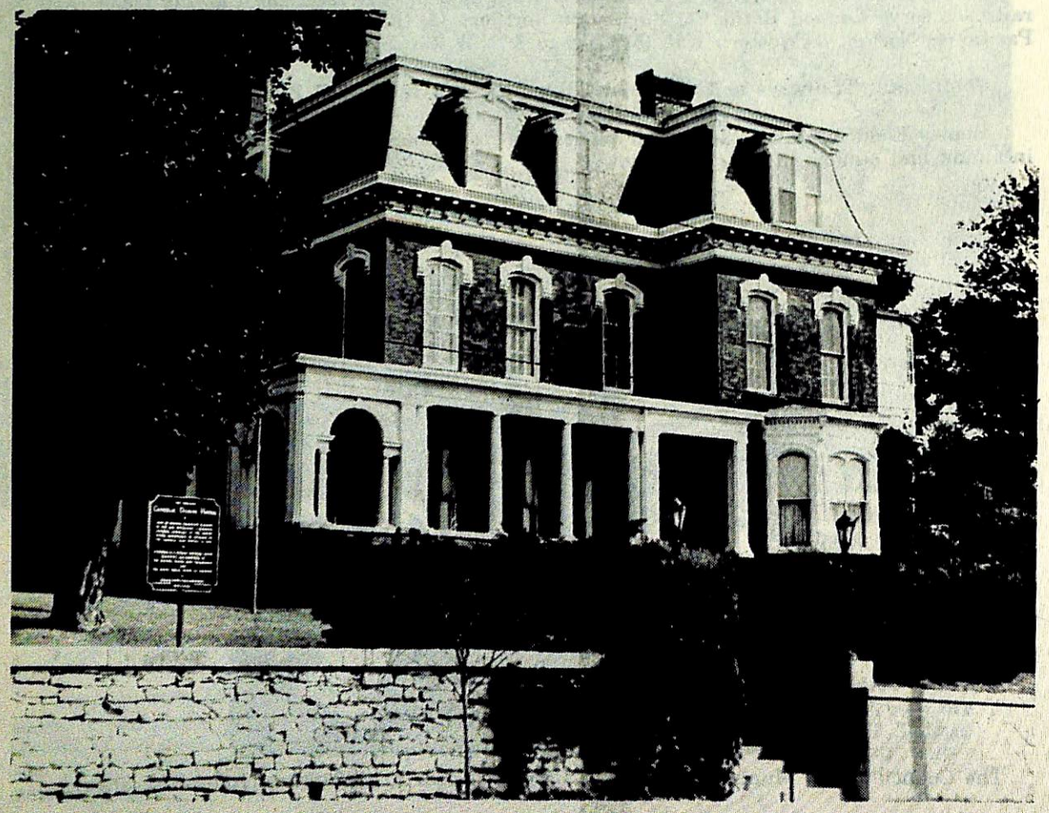

During their exploration of the Missouri River in 1804, Lewis and Clark were the first white men to stop at the site of what is now Council Bluffs. At this time, they held a meeting with the Otoe and Missouri Indians. The Lewis and Clark Monument located on the bluffs overlooking the Missouri River commemorates this meeting.

From 1846 until 1853, Council Bluffs was known as Kanesville. During this period, Father Pierre-Jean DeSmet established the first church and school in a blockhouse which was originally built to protect migrating Indians from Hostile Indians. This was located on Pierce Street on a bluff overlooking Broadway.

After being driven from Illinois, the Mormons arrived on January 14, 1846, and built a log tabernacle which seated 1,000 people. It was here that Brigham Young was elected President of the Mormon Church December 29, 1847. Bringham Young was the man who succeeded in getting the first Post Office in Kanesville.

In 1855, Amelia Bloomer, who was already famous for her new type of dress for women, arrived to make her home in Council Bluffs.

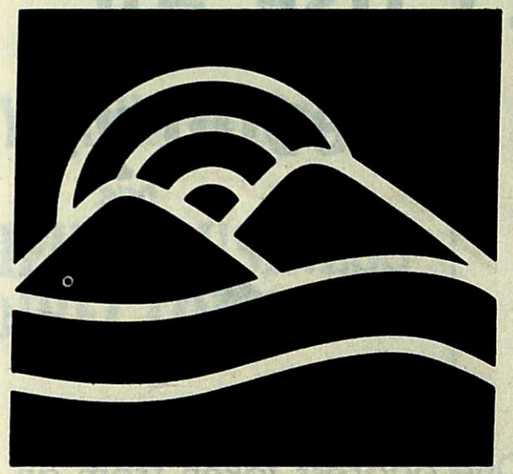

Abraham Lincoln visited Council Bluffs in 1859, and selected this city as the eastern terminus of the first transcontinental railroad to be built in the United States-the Union Pacific. General Grenville M. Dodge of Council Bluffs was the chief construction engineer for the building of the Union Pacific Railroad.

The Historic General Dodge House

The Lincoln Memorial Monument, Oakland & Lafayette Avenues stands on Lookout Point where Abraham Lincoln stood on August 19, 1859, and designated Council Bluffs the eastern terminus of the Union Pacific Railroad. The Golden Spike Monument at 21st Street & 9th Avenue is a replica of the Golden Spike driven to signify the completion of the Union Pacific Railroad. The locomotive at the Steam Engine Memorial, 39th & West Broadway was contributed to the city by the Union Pacific Railroad.

The Grenville M. Dodge home, 605 3d Street is a National Historic Landmark, restored to serve as a museum. The home was constructed by General Dodge, famous as a Civil War General, chief construction engineer of the Union Pacific Railroad and ultimately president of seven railroads.

City Directory Advertisers

By having and using your own copy of the local City Directory, you can positively identify—and reach—the kind of person, business firm and family that are most likely to be in the market for the type of product or service that you sell. Through the City Directory you'll be reaching the individuals and businesses with the top purchasing power in your community . . . those who consistently buy when they want to buy, not when they have to.

By advertising in your local City Directory, you can make sure these same people can identify and locate YOU.

You join with the backbone of your community business life: you become an integral part of the permanently established, successful firms in your community when you advertise in your local City Directory. This is prestige advertising without the financial penalties normally associated with prestige advertising.

It's the most efficient use of your advertising dollar

USERS AGREE . . .

1. The City Directory is the only record in existence that aims to identify every adult resident in your community with sufficient other information enabling you to select and contact your best prospects for sales and service.
2. The City Directory's Street Directory is again the only "complete" Street Directory of all streets and residences in your community and, therefore, is the only sure way to identify everyone in a given area or on a given street.
3. The City Directory is unequaled when used for verification of information by your sales, service and office personnel and is considered a virtual necessity by most business and professional firms.
4. The City Directory pays back its cost many times over when used intelligently in the daily conduct of business by those in your firm who come in contact with your customers and prospects or have anything to do with processing information about them.

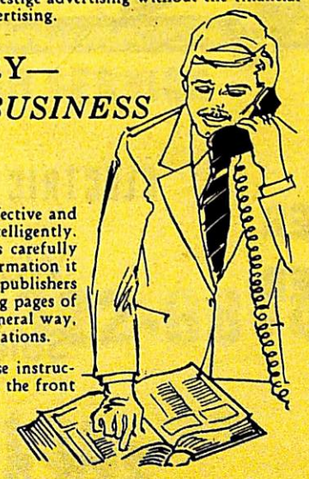

PRESTIGE ADVERTISING

By having and using your own copy of the local City Directory, you can positively identify—and reach—the kind of person, business firm and family that are most likely to be in the market for the type of product or service that you sell. Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A *"Yellow Section" or Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

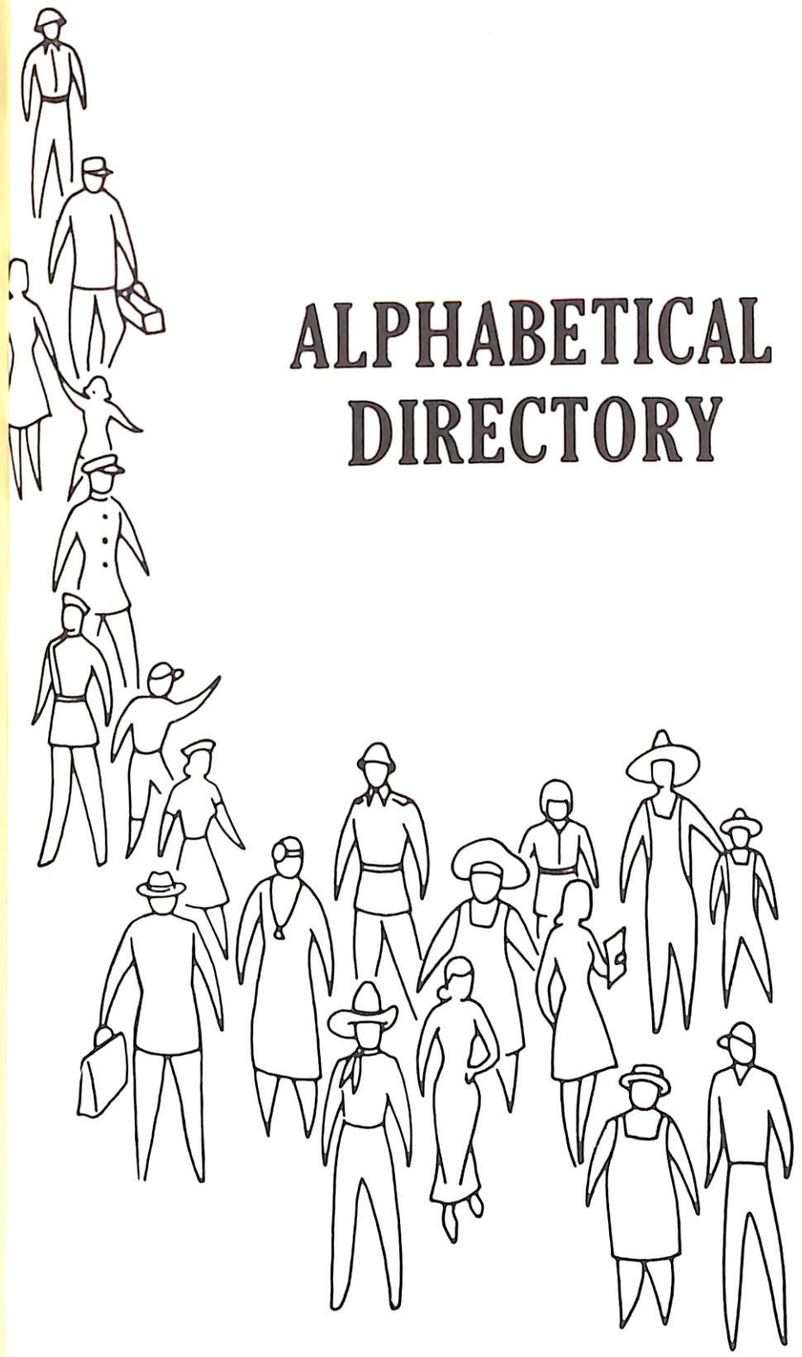

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.

Study all directory advertising invoices carefully

Business and Classified Directory publishers under various names have flooded our mails for several years with solicitations resembling City Directory invoices. Most such solicitations state that they are not invoices, but nevertheless business people frequently overlook this and process them for payment.

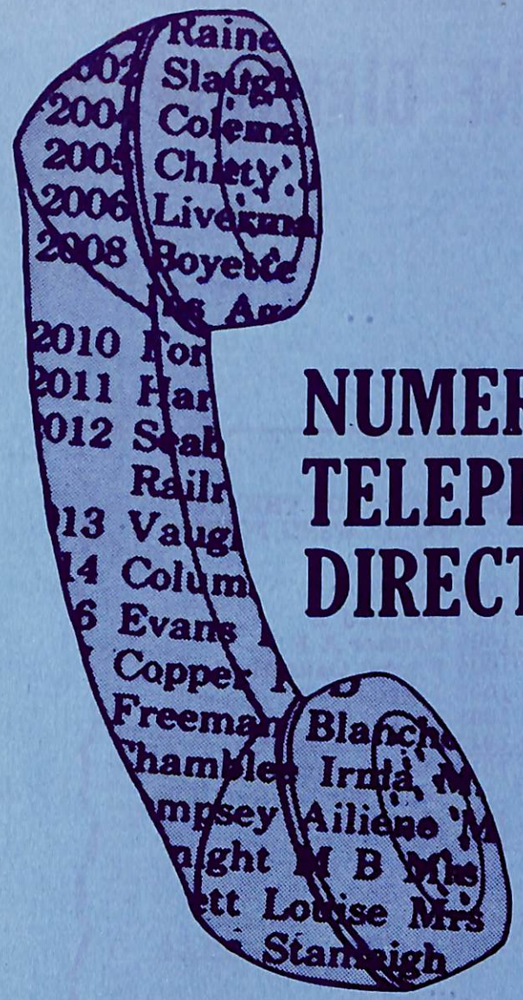

What seems like an invoice may really be a carefully worded proposal for service—of an indefinite nature—and questionable value—to be rendered in the future, *if you pay in advance.* If in doubt, check with your local Better Business Bureau, or your established City Directory publisher.

Before you invest, investigate!

NUMERICAL TELEPHONE DIRECTORY

The Telephone Numbers and names in this Directory were supplied to us during our regular door to door canvass.

This Directory is designed to assist you in providing additional information when only a telephone number is available.

NUMERICAL TELEPHONE DIRECTORY
BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numercial sequence, making it easy to "decode" blind phone numbers in classified ads—especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:
Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:
Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, job title, home address, business address and telephone number.

The City Directory

represents the City and its institutions in every corner of these United States

MORE GOODS ARE BOUGHT AND SOLD THROUGH THE CLASSIFIED BUSINESS LISTS OF THE DIRECTORY THAN ANY OTHER MEDIUM ON EARTH

Are You Properly Represented In It?

The Classified portion catalogues the professions and goods handled here

ARE YOU LISTED UNDER YOUR PROPER HEADING SO THE PROSPECTIVE BUYER CAN FIND YOU?

"Think It Over"

EVERY STORE

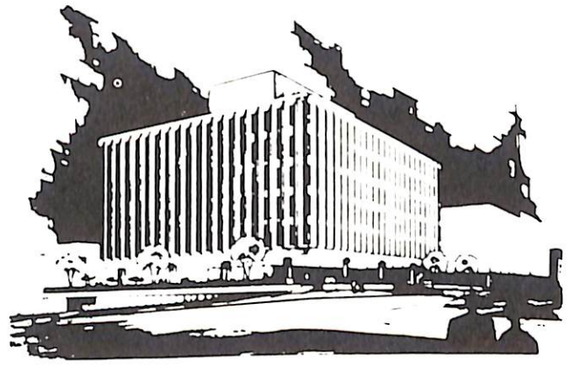

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer expects.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.
